Re: Housatonic Water Works Company, D.P.U. 23-65

Dear Ms. Luksha:

Pursuant to M.G.L. c. 164 and M.G.L. c. 165, Housatonic Water Works Company (the "Company" or "HWWC") hereby seeks approval from the Department of Public Utilities to revise rates and charges in its Rules and Regulations as listed in the Company's transmittal letter. These proposed rates would increase HWWC's total annual revenue by $808,808.00, or 112.70%.

In support of this request, we have filed the testimonies of James J. Mercer and Gary C. White, with supporting exhibits. The Company has also filed its Petition for Approval and its proposed tariff rates and charges for effect August 1, 2023.

The effects of the changes to HWWC's rates on operating revenues and on the water customers by classification are shown in the enclosed Water Rate Study.

Sincerely,

HOUSATONIC WATER WORKS COMPANY

By Its Attorney,

William E. Martin
