

Localized Temporary Water Mainline Shut Off Set for Wednesday September 8, 2021 To Replace Hydrant

Tomorrow, we will be replacing the fire hydrant near 32 High Street. This will require turning off the water in the mainline supplying High Street and directly affect Housatonic Court and High, Apple and parts of Main Street.

Contractors will be working as quickly as possible to minimize the time the water is off. However, it is anticipated that water will shut off for approximately 3 hours between the hours of 9:00 A.M. and 12: P.M..

Other areas of town may be affected by roily water as service is restored.

Thank you for your understanding and patience.
