

**HOUSATONIC WATER WORKS COMPANY**  
SINCE 1897

## **Press Release**

**November 1, 2024**

### **Information about Drinking Water Service Line Material**

On October 16, 2024, the Housatonic Water Works Company (HWWC) submitted the Lead Service Line Inventory and Replacement Plan to the Massachusetts Department of Environmental Protection (MassDEP) as required under the Lead and Copper Rule Revisions (LCRR) authorized by the US Environmental Protection Agency (EPA).

Through record review and customer self-identification surveys, HWWC identified several properties with galvanized steel service lines; however, many services are of an unknown material. As part of the LCRR requirements, HWWC will contact customers with unknowns or galvanized steel service lines that could require replacement.

For more information regarding the LCRR, please visit <https://housatonicwater.com/> or <https://www.mass.gov/info-details/lead-and-copper-rule-revisions>
