## **FOR IMMEDIATE RELEASE – Emergency Water Main Repair / Update**

Date: January 17, 2026

Housatonic Water Works Company is conducting an emergency water main repair at the intersection of Hart Street and Kirk Street in Housatonic.

The repair work is scheduled to begin at 8:00 AM on Saturday, January 17, 2026. During the repair, customers located on or near Kirk Street, Hart Street, Fairview Street, Prospect Street, and North Street may experience temporary low water pressure.

Customers may notice short-term changes in water pressure while the repair is underway. Housatonic Water Works Company will restore normal service conditions as quickly as possible following completion of the work.

**Update:** The water main break has been repaired, and water service is now being restored to the affected area. Customers should be seeing water pressure returning to normal. As the system fully stabilizes, some temporary water discoloration may occur. This condition should be short-lived. Housatonic Water Works Company appreciates the community's patience and cooperation during this emergency repair.
